5. () (A) How much (B) How many (C) which (D) What

七、閱讀測驗 (每題 2 分，共 14 分)

(A)

Mother's Day is an important day all around the world even though it started in North America and Europe. Not all countries celebrate it on the same day, but the most popular day is the second Sunday of May. It is, of course, a day to honor our mothers and make them feel special. Young children get especially excited about Mother's Day and put a lot of effort into making cards and presents for their moms. For mothers, it is like having a second birthday.

Mother's Day in the USA, the UK, Canada, Australia, etc. means mothers usually get the day off from housework. It is common for children to cook for their mother, so she can have breakfast in bed. She also receives presents, flowers and cards. In America, Mother's Day is the busiest day of the year for restaurants, as children take their moms to lunch or dinner. Americans spend a lot on this day - over \$2.5 billion on flowers and \$70 million on Mother's Day cards. In Sweden, people buy small plastic flowers and the money raised goes to help needy mothers and their children. That also means a lot on this day.

From www.ESL Holiday Lessons.com

even though 即使 celebrate 慶祝 the same 相同的 popular 普遍的
honor 致敬 put effort into 致力於 get...off 擺脫 common 一般的
receive 收到 the busiest 最忙碌的 spend 花費 billion 十億 million 百萬
plastic 塑膠製的 raised 募集的 needy 有需要的

1. () Why did the writer say "For mothers, it is like having a second birthday."?
 - (A) Because all moms can get a birthday cake on that day.
